

## 2015 Gas Processors Association Safety Award Winner: Red Cedar Gathering

Gas Processors Association (GPA) member companies were honored for their outstanding midstream industry safety records at the 2016 GPA Convention.

Red Cedar Gathering received two awards from the GPA for their safe work practices in 2015:

### 1. The Perfect Record Award

The Perfect Record Award recognizes GPA members with no lost time accidents for 2015.

### 2. The Safety Award: Division III, 2nd Place Winner

The GPA Safety Award Program recognizes GPA member companies for outstanding safety performance in comparison among similar companies within the association's membership. U.S.—based and non-U.S. midstream operating companies compete and are recognized separately for the safety honors.

The four award divisions are determined by a range of midstream operational workhours, from less than 50,000 to more than one million. The top two entries in each division are selected according to lowest "total cases incident rate", lowest "fatalities plus lost workdays incident rate," and highest "number of workhours reported."

Divisions:

- \* Division I: 1 Million or more midstream operational workhours;
- \* Division II: 200,000—999,999 midstream operational workhours;
- \* Division III: 50,000—199,999 midstream operational workhours; and
- \* Division IV: less than 50,000 midstream operational workhours.

**DIVISION III SAFETY AWARD  
2ND PLACE WINNER** within the U.S.  
category was Red Cedar Gathering,  
represented by Dan Jefferson (left)  
and Rex Doyle (right).
